

Dedicated to improving institutional effectiveness, planning, research, professional development, and leadership.

## ABOUT THE COMMISSION

*“A goal without a plan is just a wish.” □ Antoine de Saint-Exupéry, writer and pioneering aviator*

The Institutional Effectiveness, Planning, and Professional Development (IEPPD) Commission serves AFC members who are engaged in goal setting, planning, and the development of themselves and others – regardless of their job roles and titles. We work to connect colleagues across all of the 28 state colleges and to grow the work of the Commission in ways that are meaningful for members. More than just wishful thinking, we strive to make access, opportunity, and success for students possible as we inspire and learn from each other.
