

# 5G<sup>®</sup> POWER SKILLS FOR COLLEGE PROFESSIONALS

## PART 1

---

### DIVERSITY & COLLABORATION

This three-hour program addresses topics critical to building diverse and effective teams and maximizing collaboration.

During the program, participants will explore their own dimensional diversity, learn about generational intelligence, understand how diversity results in more effective team work, and how it is reflected in organizational culture.

Participants will use this information to grow stronger relationships and seek diversity when working collaboratively and in teams.

The parts of this program do not need to be taken sequentially.

#### **Dates:**

The PART 1 program will be given virtually 9:30am -12:30pm EST on April 21, 2022

**Register now!**

# 5G<sup>®</sup> POWER SKILLS FOR COLLEGE PROFESSIONALS

## PART 2

---

### INTERPERSONAL COMMUNICATION

This three-hour program addresses topics critical to developing strong interpersonal communication skills.

During the program, participants will investigate leadership communication styles, writing styles and the importance of reading and projecting positive body language.

Participants will build their verbal, non-verbal and written communication skills for working in teams, and sharing their message. They may find that by recognizing body language enables them to direct students to needed services.

The parts of this program do not need to be taken sequentially.

#### **Dates:**

The PART 2 program will be given via virtual classroom 9:30am -12:30pm EST on April 28, 2022

**Register now!**

## PART 3

---

### ADAPTIVE THINKING

#### Dates:

The PART 3 program will be given via virtual classroom 9:30am -12:30pm EST on May 12, 2022

**Register now!**

This three-hour program addresses topics that are game changers to working in collaborative settings.

Participants will explore emotional intelligence and how to employ skill. This is coupled with understanding how one's mindset impacts outcomes. Add in a dose of building your own personal brand, to understand your own impact on the others you work with, the basis for a transformative experience to change how you work with others.

Participants will use this information to better work in teams and with others one-on-one.

The parts of this program do not need to be taken sequentially.

## PART 4

---

### PROFESSIONAL LEADERSHIP

This three-hour program addresses topics critical to developing strong professional leadership skills.

During the program, participants will address conflict avoidance and resolution, investigate time management skills and their own productivity, and address the importance of integrity on leadership.

Participants will use this information to develop stronger leadership skills through improved performance, conflict management, and integrity. They will learn how to effect transformational change in their environments.

The parts of this program do not need to be taken sequentially.

#### **Dates:**

The PART 4 program will be given via virtual classroom 9:30am -12:30pm EST on May 26, 2022

**Register now!**
