5.12 Technology Commission Board Report
January 2019

Chair: Paul Lefavi
Director, eLearning Technology
Indian River State College

Short Term Goals:
Fill out rest of Technology Commission board
*Michael Pelitera Chair-elect. I asked Michael to become Chair-elect so that we could continue with the work started this year.
Start a fb AFC Technology Commission page
Send welcome email to Tech first commission.

Join in on Region V Spring Conference March 28, 29
(Mark Johnson, Region V director)
-Call for Proposals:
-Breakout Session:
-Sponsorships:

Long Term Goals:
Increase active participation in commission
Attend all board meetings
Win Commission of the Year
IT video campaign

At the AFC Annual Convention, the past chair and I were the only attendees in any of the technology meetings. That makes it hard to network and exchange ideas. Technology is more than computer and network technicians; there are a lot of exciting tech trends being explored at many of our colleges.

-Augmented Reality (AR)/ Virtual Reality (VR)
-Artificial Intelligence
-The Internet of Things
-3D Printing
-Use of Drones
-5G phones
-Quantum Computing
-Blockchain technology

I am hoping to start a video competition, where different IT departments or functions can submit a short video showing what they do and where they are headed. I would even love to have a small cash award if possible.

AFC Technology Commission Budget is $3,200

Thank You
