The panel presented information and findings from their collaborative whitepaper entitled ‘Florida College System Cybersecurity Ecosystem.’ A copy of the whitepaper is available on the AFC website.

Dr. Massey recommended that all presidents go back to their campus and speak to their CIOs to find out where each college stands on issues such as cybersecurity. He also recommended that in the spring or early summer each COP Support Council to give a report on the issues and subject matter that they will be meeting about over the coming year, as some do have financial implications that could be added to the legislative budget request.

President Parker asked the panel to develop a chart of the 28 colleges, that covers the metrics of 5.1 and 5.2, from the whitepaper. COBA will assist in the process. COBA will try and meet before May, which is their next scheduled meeting.

6.0 COP Committee and Workgroup Reports

6.1. Articulation Coordinating Committee

Dr. Massey reported that the Committee has found that there is still a bit of misunderstanding about common prerequisites and transferability. He shared that many times the counseling manuals are not available to the students, Florida Virtual has agreed to put all prerequisites and counseling manuals online.

6.2. Distance Learning Committee

Dr. Sidor referred to the distributed Committee report. The report will be available on the AFC website.

6.3. Florida College System Risk Management Consortium

Dr. Holdnak reported that the 2018 retained losses for the Consortium will be around \$6 million. The actual losses for Chipola College (\$10-11 million) and Gulf Coast State College (over \$39 million) are much higher. The 13 insurance carriers for the property portion have all agreed on one adjuster. If the legislature doesn't help, the requirements of being a member of the Consortium say that each college tithes in, if the losses exceed the reserves, what the losses are, and hopefully moving forward there will be a lower rate of losses so it can be made up. Also, the FCSRMC team has gone to meet with the insurers, Llyod's of London. Due to two years of back to back significant losses the Consortium is facing a property-casualty increase per college of 20-25%. Dr. Holdnak shared that the Operating Committee will be meeting at the end of the month and will report more at the next meeting.

Ms. Heflin shared that Senator Gainer and Jackie Peters are working on a Hurricane Relief Package. Impacted school districts were asked to send in a list of dollars that needed to go in the package. Dr. Holdnak said he will work on the list from the Consortium and get it to Senator Gainer.

6.4. Funding Formula Workgroup

The Workgroup will be working on the developing a metric. The workgroup will include Dr. Probstfeld as chair, Dr. Williams, Dr. Barrett, Dr. LoBasso, and Dr. Holnak. COBA will work alongside the workgroup.

6.5. Media and Public Relations Committee

Fern Senra James, from Moore Communications, reported for the Committee. He referred to the documents that were approved during the Policy and Advocacy Committee. The documents will be email to all presidents. He spoke on the social media strategy, and the videos that are being made at certain colleges. He encouraged all colleges to make their own videos focusing on workforce partnerships and the role of funding. He shared that the partnership with the Florida Chamber Foundation has continued, and interview style videos will be created and produced by the Chamber and shared on social media. Mr. James asked that during meetings presidents take a picture with legislators and share it on social media channels and pass them on to Moore Communications.
