3.0 Report of the Chair –President Jim Murdaugh

3.1 Ratify, AFC and FCSAA 2019-20 Annual Assessments

Mr. Brawer distributed an edited spreadsheet of annual dues and assessments to all presidents in the room. The dues and assessments cover the AFC Policy and Advocacy Committee, Council of Presidents and the Florida College System Activities Association. He shared that there were a couple of changes from the original document that had been distributed earlier. A couple of colleges' recurring appropriation had been counted twice as it was unclear that the amounts had been included in the base GAA appropriations. Daytona State College, South Florida State College, were two of the colleges whose numbers had been edited. Mr. Brawer gave a brief explanation of the origin of the formulated spreadsheet used to assign each institution dues. It appears that there are some anomalies that need to be reviewed moving forward. Mr. Brawer shared he had some ideas on simplifying the formula that would create a more clear and concise number for each individual college. He will share them with the Council as he is able to work them out.

Dr. Murdaugh shared that he and Mr. Brawer spoke the night before about the vote for the assessments. Dr. Murdaugh asked for a motion to either approve the assessments with the changes that have been made or a motion to approve the assessments at last year's rates. Dr. Meadows made a motion to accept the assessments with the corrections that were presented. Dr. Lorenz questioned Mr. Brawer about the increase of her college's, Seminole State College, assessment from the previous day. Mr. Brawer stated that he was unable to explain all aspects of the formula that affect the assessment amounts without looking at the embedded formulas. But he explained that if one college's numbers are changed it redistributes the change across all college calculations. After some discussion, Dr. Murdaugh made a move to call for a motion to approve the assessments at the previous year's amount. Dr. Meadows withdrew his previous motion. Mr. Brawer referred the Council to the document in their packets which explains the methodology of the formula.

**Action:** *Upon a motion by President Pickens and a second by President Haile, the Council of Presidents unanimously approved the Assessments at the previous year's amount.*

3.2 Approval, 2019-20 COP Steering Committee Ballot

Mr. Brawer referred to the Steering Committee document in the packet. He announced that the nominees for the open steering committee seats are Dr. Lorenz, Dr. Massey, and Dr. Probstfeld. President Pickens has accepted the nomination for Policy and Advocacy Committee Chair and vice chair of the Council of Presidents. Being there was no competition for any of the seats he shared that only ratification was needed for the incoming positions.

**Action:** *Upon a motion by Dr. Massey and a second by Dr. Williams, the Steering Committee ballot and the approval of President Pickens as Policy and Advocacy*

*Committee Chair was approved unanimously.*
